

# PENTAX SOLAR POWER SYSTEM

**A SUSTAINABLE FUTURE POWERED BY  
SOLAR ROOFTOP EPC SOLUTION.**

## ABOUT US

Pentax Engineering Pvt. Ltd. (PEPL) was established in April 1978. We are a Multiproduct Company offering Turnkey Solutions for Plant Safety Systems.

With over 45 years of experience on diverse Projects and Applications, we are synonymous with Quality, Reliability and Services.

Today, PEPL specializes in end-to-end solutions that include EPC of highly sophisticated Solar Rooftop Systems.

The diverse projects we undertake are completed in - time to our customer's total satisfaction.

### Vision

To provide affordable and reliable Solar Energy Solutions to our Customers.

### Mission

To be one of the leading providers of Solar Energy Solutions.

### Our Values

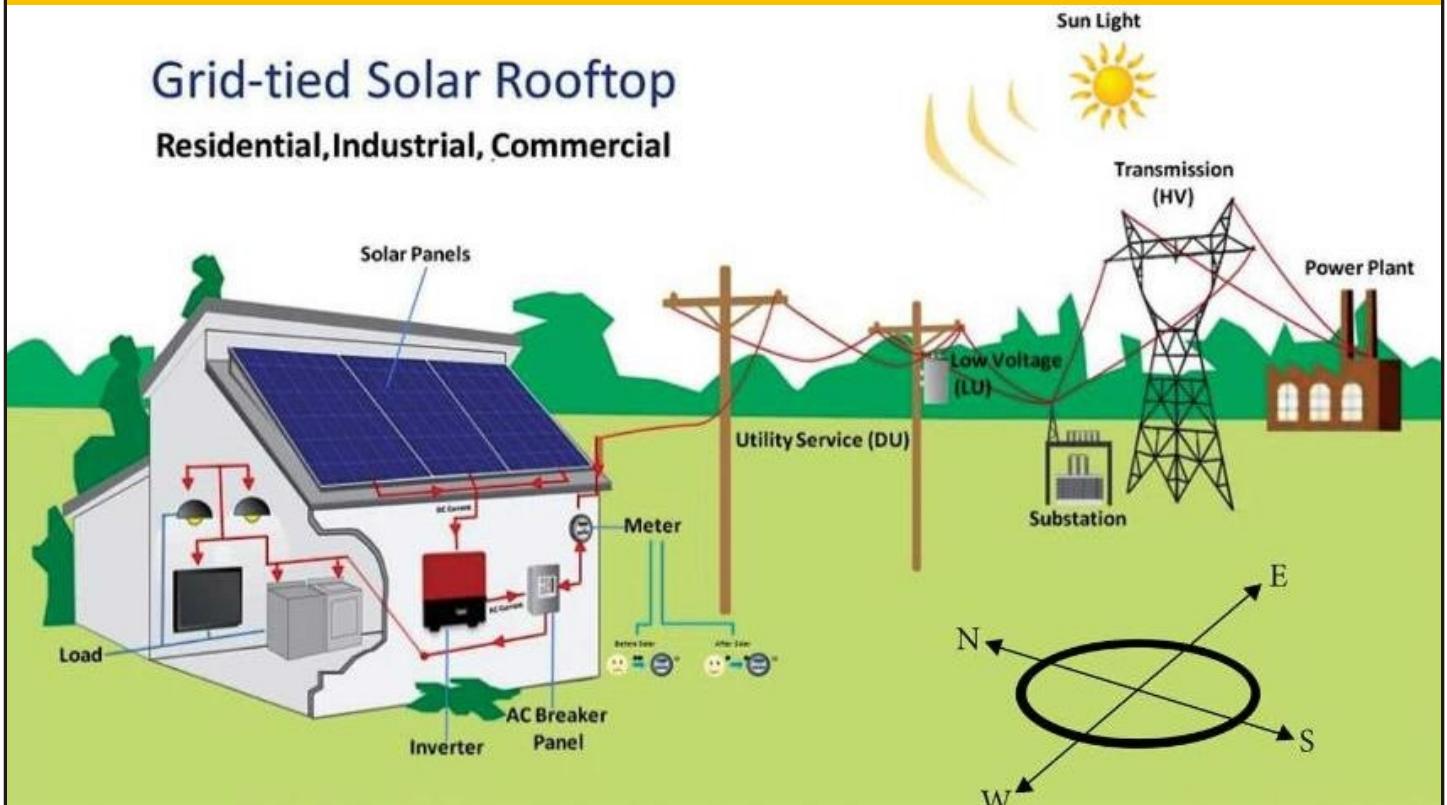

Our Commitment to renewable energy. We grow with people and partners.

## WHY PENTAX

- *Concept to Commissioning - Survey, Design, Procurement, Installation, Commissioning & Maintenance*
- *All types of structure installations - Rooftop / Ground Mount / Metal Shade*
- *Specialised Designs for Residential / Commercial / Industrial / Institutional Premises*
- *Financial Analysis for accurate R.O.I. Calculations*
- *Sanction Load Increment with proper guidance and approval for Net Metering*

# SYSTEM AT A GLANCE

## Grid-tied Solar Rooftop Residential, Industrial, Commercial

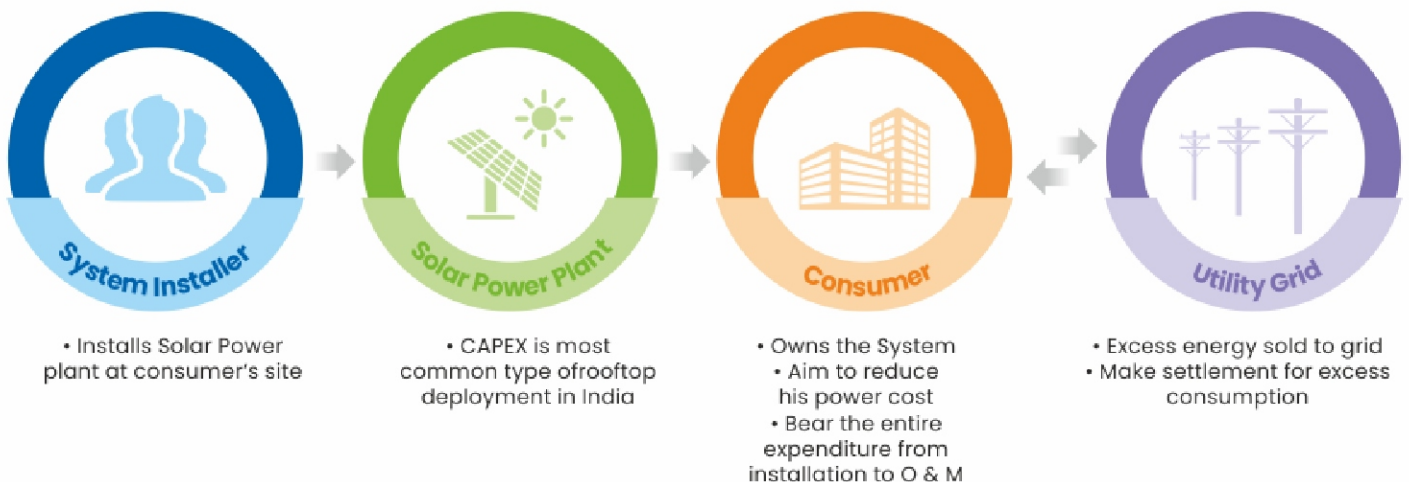

A Grid Tied Solar Rooftop Photo Voltaic ( SPV ) power plant consists of SPV Array, Module Mounting Structure, Inverter consisting of Maximum Power Point Tracker (MPPT), Controls & Protections, Interconnection Cables and Switches.

SPV Array is mounted on a suitable structure. Grid tied SPV system is without battery. It is designed with necessary features to supplement the grid power during day time.

Components and parts used in the SPV power plant conform to relevant BIS & IEC Standards.
